for moving forward to correction for OSU's project name and EIN.   We're on our way to getting this resolved.

I wanted to check in on the other half of Dora's message - that related to Santa Maria.   I'm trying to award an amendment to remove the special condition related to the SAM registration, but cannot due to SMCS's insufficient match level.   

Please reference Dora's guidance below for determining if a program is new or not and, if you still believe this is a new program, provide us with a justification of how you determined this.   If you agree with us that this is a new name for an ongoing program, we will return this amendment to you, so the subgrantee may add funds to their share of the budget.   Please provide this information no later than COB Monday, August 18<sup>th</sup>, so we may move forward with the amendment process.

Thank you.

our determination is that the newly transferred program to Santa Maria does not meet the CNCS standard for a new project—it is clear that members are serving in the same place, doing the same service activities with UAC staff in place, at least initially, to support the program after transfer to Santa Maria.   A review of the executive summaries also support the assessment of the same program.   With those parameters, the Santa Maria program has to meet the approved match rate for UAC unless you have evidence to the contrary.   Here is the standard CNCS uses to determine if two programs are the same:   

Two projects will be considered the same if they:

Address the same issue areas

**Subject:** Funding Years/Match Rate Variances

Hi Tracey,

I've reviewed the funding summary chart for the award amendment issued yesterday and there are a couple of things that need corrected.

Santa Maria Community Services/Project Advance—Shows 10 years funding and 50% required match, should be 1 year and 24%. (The 10 years is probably pulling from Project Ace, but the count needs to start over since this is a new project.)

Ohio State University Sponsored Programs/Glenn School—Shows 3 years funding, should be 1. Required match is correct at 24%.

Thanks for correcting!
